

Compassionate Care, Modern Aesthetics, Dentistry

Our office has resumed regular operating hours and we are seeing patients for elective and non-elective procedures. If you had an appointment scheduled while our office was closed during the months of March, April and May, please call us to reschedule and we will get you in as soon as possible. You can expect the following for your upcoming appointment with us:

- Please complete this COVID-19 pre-screening [questionnaire](#) prior to your visit
- Please check your temperature at home before your appointment; reschedule if you are experiencing any symptoms listed in the questionnaire above
- Please come to your appointment alone, if possible (accompanying a minor is acceptable)
- A face covering will be required upon entry. If you do not have one, we will provide you with a disposable surgical mask
- Please arrive on time but no earlier than 5 minutes to your scheduled appointment as we aim to limit the amount of individuals waiting in our lobby
- Our doors are now locked to limit the frequency of people entering/leaving; call our office when you have arrived for your appointment and we will let you in
- Your temperature will be taken with a touchless thermometer upon entry

Stay safe and help our community get past the COVID-19 pandemic.

Dr. Michael Korn and Team
